

CS 443 Project Presentations and Demonstration

December 3, 3:45pm-5:45pm

The presentation will be 10 to 15 minutes in length, with approximately 2-3 *minutes* for questions and answers at the end of each presentation. The presentation includes:

- An overview of your project
- ER diagram
- Relational database schema with primary key and foreign key
- Database and languages
- Key interfaces (which functions (insert, delete, update, query) you implemented)
- What you did well: challenges that came up that you were able to address successfully.
- What you did poorly: problems that came up because of mistakes you made.
- Difficulties encountered, and other lessons learned
- Any known problems/bugs/unimplemented features
- Demonstrate the database operations
- Q/A

Submit the PPT before your presentation.
